Now you can get a clear overview of the revenues of Telemedicine companies. Teladoc stands on the top among them.

You can also kick-start your own telemedicine business. If you choose to build the doctor appointment booking app from scratch it will be a tiresome process and will take a lot of time. So, the best and most cost-effective way is to make use of a ready-made online solution of a popular online doctor appointment booking platform like Teladoc. This is because a ready-to-use [Teladoc clone](#) script will be pre-built with all key features and technologies to arrive at a full-fledged doctor appointment booking app easily and in a short period. But, at the same time, you need to understand that not all the Teladoc clone scripts will meet your online healthcare business needs and will help you in building your own striking doctor appointment booking app.

Building just a typical doctor appointment booking app with the normal set of features will not impress people anymore. For that, you need to pick a suitable Teladoc clone that is built with innovative features and that fits your online healthcare business concepts.

Now, a question will arise in your mind.

Where can I find such a perfectly crafted Teladoc clone for my online healthcare business?
